Happy And Beneficent New Year: 14th January is the first day 2070 of Samvat Calendar founded by Emperor Chakravarty Samrat Vikramaditya II. He was an astronomer and patron of sciences. His Iron pillar or rather the cast iron pillar in arena of Kila Rai Pithora (of Prithviraj) close to Kutub Minar and which Kutb Uddin tried to pull to ground but failed , is the first evidence of technology of welding anywhere in the world. Vikramaditya was founder of glorious Ujjain Empire of Parmar Rajputs. He should not be confused with Chandragupta Vikramaditya the grandfather of Ashok, The Great. Ujjainese produced valorous progenies who along with Chauhans and Bundelas of Bundelkhand resisted Islamic invaders till 11th Century when Ilutmich reduced Ujjain destroying and desecrating very ancient heritage temples and monuments. It was during this period that ancestors of Veer Kunwar Singh of Jagdishpur collecting their band made a long march and established their jagir in Bihar. Kunwar Singh remained the only undefeated leader of 1857 uprising. His biography by Lt Gen SK Sinha is worth reading. Here is the breakdown of months in this calendar which was adopted by Kingdom of Nepal on establishment of the Shah Dynasty and was the official calendar.

NRI's can vote now in Indian Elections without being present in India: Non-resident Indians (NRIs) will soon be able to cast their vote through electronic-ballots or through their nominees residing in India but will not be able to exercise their franchise through the novel method during the coming Delhi assembly polls. The Union government on Monday informed the Supreme Court that it had accepted Election Commission's recommendation to allow NRIs to vote through e-ballot system or through proxy. The EC discarded other possibilities - postal ballot and internet voting - terming them fraught with the danger of manipulation. After the Centre conveyed its acceptance of the EC recommendations on NRI voting, a bench of Chief Justice H L Dattu and Justice A K Sikri gave the Centre eight weeks to effect necessary amendments in the law to implement the EC suggestion.

Comments by Shri G V Chelvapilla (chelvapila@aol.com): It's a known fact that most

Indians living outside India vote with a patriotic mind-set and support BJP's motto of India first. This can now help in more BJP victories all over India which translates to further development and growth for entire India and less of Congress style sycophancy & misrule.

The Power of Prayers over Water: Can water be affected by our words? Dr. Masaru Emoto, a Japanese scientist, believes so. And he has proof. Dr. Emoto took water droplets, exposed them to various words, music, and environments, and froze them for three hours. He then examined the crystal formations under a dark field microscope. And he took photographs. The results were totally mind-blowing. Here's a photo of ordinary water without any prayer spoken over it. The molecular structure is in disarray. The other photo is water after the prayer

Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it's the only thing that ever has!

was said. It's simply breath-taking. Next, Dr. Emoto stuck a piece of paper with these words: "You make me sick. I will kill you." Here third picture is how the frozen water droplets looks like under the microscope...

Comments by Shri G V Chelvapilla (chelvapila@aol.com): Our sages have known, and have handed over that knowledge to us, that our words, prayers have immense effect over elements. Since we all want 'scientific proof' now and then few scientists do venture into the esoteric arena, and they do come up with endorsement of power of words especially over water. As you know water was used for blessings and imprecations by sages. Above research is by Japanese Scientist which has only shown physical change that occurs in water droplets or molecules as a result of prayers or otherwise, whereas ancient Indian sages have brought changes in the physical atmosphere. Have positive effect on all life since the basis of all living beings is water which is called 'Nara' in Sanskrit. 'Ayana' means pervading. Thus Narayana! Sanskrit Mantras are designed to create more Power than ordinary words, when properly pronounced. Hindus perform Sandhya Vandana three times a day chanting Sanskrit Mantras with Water!

Don't release 'Bajrangi Bhaijan': On the day of Eid i.e. on 17th July 2015, a film will be released titled 'Bajrangi Bhaijan' directed by Kabir Khan with Salman Khan in lead role. The film hurts religious sentiments of Hindus and it has been done so cleverly that the person watching would not immediately realize it. The shooting of the film is going on and it has enraged devout Hindus. The film should not be granted certification for release and cases should be filed against producer, director and actors of the film. Presently, thousands of Hindu girls are drawn by fanatics in their false love-overtures and are converted. It is evident from various websites and complaints lodged with police, that the film is produced to glorify 'love jihad'. Many pro-Hindu organizations have opposed this film and have demanded the Central Government to take action against the producer and director of the film. The name and advertisements of this film are so anti-Hindu; therefore, there is every possibility of many anti-Hindu denigrating scenes being part of the film will deeply hurt the religious sentiments of Hindus and will cause rift in the society.
